

## Introduction to Wavelength Opto-Electronic

ISO 9001 certified since 2011, Wavelength Opto-Electronic is a leading provider of high-precision optical solutions for various industries including semiconductors, biomedicine monitoring and surveillance, energy power batteries, consumer electronics, LiDAR, autonomous driving, and many more.

Our strong specialization in optical design and manufacturing has enabled us to offer quality laser optics, optical modules, complex system customization, and rapid prototyping. Our state-of-the-art precision and infrared optics production facilities in Singapore allow us to deliver cutting-edge solutions that meet the most stringent quality standards.
